III. OBJECTIVE

Bandits have seized the Gold City Express. You must rescue the passengers, save the train, and recapture the loot! It's a test of strength and stamina as well as your sharp-shooting skills. Hi-yo Raider, a-way!

IV. GAME PLAY

First you must fight your way from car to car atop the train to regain control of the engine. Then you must ride alongside the train in a gun battle with the bandits on board.

Play Modes

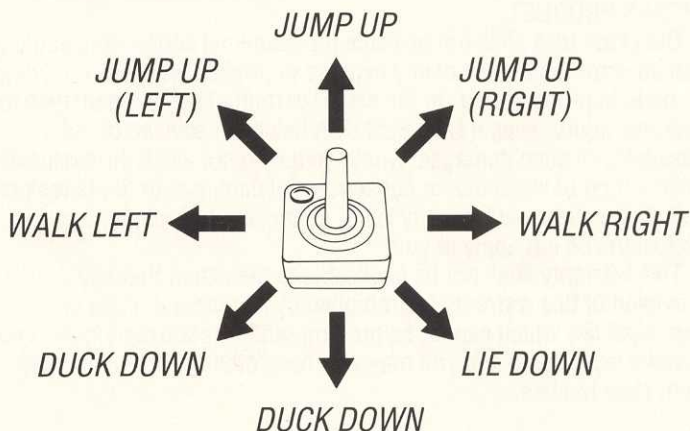

- A) Practice mode:** You have 32 lives. You can go through only on the first two trains. Your scores will not be listed on the score table.

- B) Normal mode:** You have 5 lives and 8 trains. Your scores will be listed on the score table. If you lose all of your lives, you will get a screen message saying PRESS BUTTON TO CONTINUE. If you press FIRE within 10 seconds, you can start a new game on the last car of the train where you left off. If you wait 10 seconds, the screen message changes to PRESS BUTTON TO RESTART. Press FIRE to start a new game from the beginning. (Press RESTORE key to return to the beginning of the game at any time.)
- C) Advanced mode:** You have 5 lives and 8 trains. Your scores will be listed on the score table. But if you lose all of your lives, you can only restart the game from the very beginning.
